## 1: Review Comments

	Reviewer's comment	Author's feedback
<p><b><u>Compulsory</u> REVISION comments</b></p> <ol style="list-style-type: none"><li><b>1. Is the manuscript important for the scientific community? (Please write a few sentences on this manuscript)</b></li><li><b>2. Is the title of the article suitable? (If not please suggest an alternative title)</b></li><li><b>3. Is the abstract of the article comprehensive?</b></li><li><b>4. Are subsections and structure of the manuscript appropriate?</b></li><li><b>5. Do you think the manuscript is scientifically correct?</b></li><li><b>6. Are the references sufficient and recent? If you have suggestions for additional references, please mention them in the review form.</b></li></ol> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<ol style="list-style-type: none"><li>1- The study is interesting, and can makes theoretical, practical, and contextual contributions in the area of social sciences.</li><li>2- The title of the article is interesting and according the scope of the study. But the word (a case study should captalized as “ A case study)</li><li>3- The abstract of article is nicely and logically written, covering all component of article. (some words replacement pointed out)</li><li>4- The author covers all component of article. The subsection and structure of the manuscript is according to the set pattern. But the discussion part need improvement</li><li>5- This study relates to social Sciences, not to real science. Technically manuscript is correct subject to minor revision pointed out to the author.</li><li>6- Although the references are recent, but aome references are too old, e.g refer no 8, 20, 2. Needed improvement and revision according to the APA 7<sup>th</sup> Manual.</li><li>7- <b>Some sentences needs rephrasing pointed out in original manusript. The word ( in order to, in accordance with), needlessly but repeatedly used. Suggested to delete unnssary words. The punctuation mark ( , ) must add where “ and” is used.</b></li><li>8- <b>Add “A” before, random sample</b></li></ol>

<b>Minor</b> REVISION comments  1. <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Overall the manuscript is well structured, written, with great clarity, smoothness, and good logic. The language and expression quality meets the expectations. To sum up, the article accomplished the laid out research objectives. The manuscript needs minor revisions before acceptance/ publication	
<b>Optional</b> comments	After a careful review of this article, I believe that it should be published after minor revisions that are being pointed out in the observation sheet.
