Type of the Article	Original Research Article

1: Review Comments

	Reviewer's comment	Author's feedback
<p><u>Compulsory</u> REVISION comments</p> <ol style="list-style-type: none">1. Is the manuscript important for the scientific community? (Please write a few sentences on this manuscript)2. Is the title of the article suitable? (If not please suggest an alternative title)3. Is the abstract of the article comprehensive?4. Are subsections and structure of the manuscript appropriate?5. Do you think the manuscript is scientifically correct?6. Are the references sufficient and recent? If you have suggestions for additional references, please mention them in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>I find your paper to be quite interesting, but it requires some slight improvements as outlined below:</p> <ol style="list-style-type: none">1. Please review the paper's title and correct any spelling mistakes. Additionally, ensure that botanical name of crop is written in italics.2. In the abstract, avoid using abbreviations, include appropriate punctuation, and consider revising the final lines to clearly state the novelty of your findings in comparison to current knowledge.3. In the introduction, explicitly explain how your research differs from other published articles on the same topic.4. The overall level of English in your manuscript does not meet the required standards. Consider having a native speaker review your manuscript for grammar, style, and syntax. <p>Minor Comments:</p> <ol style="list-style-type: none">5. Avoid starting sentences with preposition words.6. Write your manuscript in the past tense rather than the future tense.7. Italicize scientific words.8. Provide subscripts for chemical formulas (e.g.,

H₂O).

9. Offer more justification for your results in the discussion section.
10. Follow a consistent referencing style as per the journal guidelines. Ensure that at least 80% of references are from scientific journals published in the last 10 years (2013-2023). Add more relevant and recent references to the manuscript, including related articles from this journal.

The revised manuscript should highlight modifications in a different color (e.g., red font with yellow highlight).

I appreciate your attention to these suggestions and look forward to reviewing the revised manuscript.
