

Journal Name:	<u>Journal of International Research in Medical and Pharmaceutical Sciences</u>
Manuscript Number:	Ms_JIRMEPS_12274
Title of the Manuscript:	Pharmacology of PARP Inhibitors: Targeted Therapy for Cancers
Type of the Article	Review Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This is a nice narrative review of the PARP inhibitors and its clinical dosage and applications. The authors have nicely consolidated the available literature regarding it	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Kindly check the grammer in the last 3 lines It would be nice to specify which cancers in place of various cancers	
Are subsections and structure of the manuscript appropriate?	Yes, but ongoing trials can be consolidated in a separate heading from the strategies to overcome resistance.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum	PARP inhibitors are in a great way playing a role in management of advanced cancers in combination with other medications. A narrative review on available drugs and its clinical indications will benefit the readers to understand the clinical implications. PARP inhibitor in combination therapy for prostate cancer has shown benigits in mCRPC.	

3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. =	Yes.	
<u>Minor</u> REVISION comments Is language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	A seperatet table for ongoing trials would be helpful for the readers to update on the available current research on PARP inhibitors Also it would be nice if the authors could include the impact on survival outcomes for the drugs on various cancers if applicable as it would be helpful for the readers.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
