Journal Name:	<a href="#">Asian Journal of Plant and Soil Sciences</a>
Manuscript Number:	Ms_AJOPSS_12249
Title of the Manuscript:	<b>Influence of Some Soil Physical and Chemical Properties Regulating Phosphate Availability in Hadejia-Jama'are Wetland Soils.</b>
Type of the Article	

**General guideline:**

**This journal believes that no manuscript should be rejected only based on 'lack of Novelty'**, provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.

Yes. It addresses how soil properties affect phosphate availability, which is crucial for understanding nutrient management and improving agricultural productivity in wetland ecosystems.</li> <li>2. Some modifications are required in the title of the article. The alternative title is "Impact of Various Soil Physical and Chemical Properties on Phosphate Availability in the Soils of Hadejia-Jama'are Wetlands".</li> <li>3. The abstract is comprehensive. But there is no need to put references in this section.</li> <li>4. Yes, the subsections and structure of the manuscript are appropriate.</li> <li>5. Yes, the manuscript is scientifically correct.</li> <li>7. Yeah, sufficient number of references were mentioned.</li> </ol>
