

Editor's Comment:

I went through the shared relevant files of manuscript number: 2024/AJOCR/12144. Although authors revised the manuscript as per comments/suggestions by learned reviewers, still following is left and should be updated prior to acceptance of the manuscript for publication in the upcoming issue of AJOCR.

1. In the running text, citations [29-30] and [39-40] should be corrected as [29,30] and [39,40], respectively.
2. Reference 41 is missing in the running text, and thus should be cited appropriately in the running text.
3. Besides, running text under a couple of sub-headings are missing. So, it should be updated (Optional).

Conclusively,

I approve this technically sound article for publication in the upcoming issue of AJOCR after a few minor incorporations are made in the final version of this manuscript.
