

I. K. Press

Journal Name:	Journal of Global Ecology and Environment
Manuscript Number:	Ms_JOGEE_12179
Title of the Manuscript:	A preliminary investigation of the physical features and the physicochemical and microbiological parameters of natural springs found in Linden, Guyana
Type of the Article	

General guideline:

This journal believes that no manuscript should be rejected only based on 'lack of Novelty', provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.

To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:
