<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>Proper storage is important for marketing and distributing fruits and vegetables and extending their shelf life. Cold storage is effective in maintaining fruit quality standards for a longer period and reducing weight loss during storage. The shelf life of guava fruits is 4-5 days at room temperature, and they ripen quickly after harvest due to their high moisture content. Therefore, it is necessary to provide different storage techniques and post-harvest treatments to increase the shelf life of guava fruits.</p>
