

I. K. Press

Journal Name:	<a href="#">Asian Journal of Agriculture and Allied Sciences</a>
Manuscript Number:	Ms_AJAAS_12641
Title of the Manuscript:	<b>Effect of Regulated Deficit Irrigation and Mulch Levels on Quality and Economic Importance of Onion (<i>Allium Cepa</i> L.) at Werer, Middle Awash Valley, Ethiopia</b>
Type of the Article	

**General guideline:**

**This journal believes that no manuscript should be rejected only based on 'lack of Novelty'**, provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.

To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

## **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The study related to deficit irrigation is very important as it is an optimization strategy in which irrigation is applied during drought-sensitive growth stages of a crop. Scarcity of ground water and other water resources has made it essential to focus on different methods of irrigation.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	

**J. K. Press**

<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	<b>Researcher has used proper scientific means to study the objective. Analysis of soil moisture, texture, bulk density, infiltration rate and crop water requirement are some of the important scientific methods to identify the type of irrigation required. The study is based on field study which strongly supports the study.</b>	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	yes	
Minor REVISION comments. <b>Is the language/English quality of the article suitable for scholarly communications?</b>	yes	
<b><u>Optional/General</u> comments</b>		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
