

Journal Name: [Journal of Disease and Global Health](#)
Manuscript Number: Ms_JODAGH_12600
Title of the Manuscript: **Biology, medically importance and control of bed bug (*Cimex lectularius*) as pests of hospitals, dormitories, homes and hotels**
Type of the Article: **Review Article**

General guideline:

This journal believes that no manuscript should be rejected only based on ‘lack of Novelty’, provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.

To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (<i>Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i>)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript?	The manuscript holds significant importance for the scientific community. It provides a comprehensive understanding of the biology and behavior of bed bugs, which is crucial for developing effective control strategies. The detailed examination of their medical implications highlights the urgency of addressing infestations, especially in sensitive environments like hospitals	

Minimum 3-4 sentences may be required for this part.	and hotels. I appreciate this manuscript for bridging the gap between scientific research and real-world applications, making it a useful resource for both researchers and pest control professionals.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the work is very simple and needs to be modified slightly as below: Revised title – “Biology, health impact, and management of bed bug (<i>Cimex lectularius</i>) infestations in healthcare, residential, and hospitality setups”	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The information given in the abstract is sufficient.	
Are subsections and structure of the manuscript appropriate?	The subsections and structure of the manuscript are nicely framed.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	Introduction : All the introduction information is a part of Bed bug biology and should be removed and shifted to biology section. Introduction should be rewritten providing the general background of the pest and its significance with proper citations. The information in each section and subsection is less and needs to be enriched with more data with citations. The problem raised in the ms is of medically importance and the significance is described with its control measure. The applicability of the study is also very important part of the ms.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Recent references are to be incorporated with proper information. The reference section needs to be checked and formatted properly.	

J. K. Press

Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	The language quality is good and simple to understand.	
Optional/General comments	The ms may be accepted after the above mentioned corrections.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
