Journal Name:	Journal of Disease and Global Health
Manuscript Number:	Ms_JODAGH_12618
Title of the Manuscript:	NANOTECHNOLOGY THERAPY FOR T2DM: CHALLENGES AND FUTURE PERSPECTIVES, 2024
Type of the Article	Review Article

General guideline:

This journal believes that no manuscript should be rejected only based on 'lack of Novelty', provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.
