PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The article provides a thorough and insightful analysis of the topic of AI, offering valuable contributions to the field. The methodology is sound, and the conclusions are well-supported by the data. I feel appreciate of the clarity of the writing and the logical structure of the statement about the study.	

<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes, and the writing about the study refelceted to national development.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract effectively captures the key elements of the article, clearly outlining the literarature review and main findings. It provides a concise overview of the study and engages the reader by highlighting its significance and relevance to the field. Overall, it is well-structured and informative</p>	
<p>Is the manuscript scientifically, correct? Please write here.</p>	<p>The manuscript appears scientifically sound. The Systematic Literatire review is robust, and the results are well-supported by the previous data statement. The author's interpretations align with the evidence presented, and the conclusions drawn are logical based on the findings. There are no apparent issues with the scientific accuracy of the study.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>The references are comprehensive and appropriately chosen, providing a strong foundation for the manuscript. The sources are recent, with the majority being from the last five years. While the manuscript cites several important studies, I recommend expanding the reference list to include more recent publications on the topic. Some sections, particularly in the literature review, rely on older sources (published more than 10 years ago), which could be updated with more current research to improve the manuscript's timeliness.</p>	
<p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes.</p>	
<p><u>Optional/General</u> comments</p>	<p>I believe the article would benefit from a more thorough discussion of its limitations. Including a section on potential future research (which is good section in this study), the findings would make the article more impactful.</p>
